

Take Your Students Abroad During School Breaks with AFS

AFS-USA offers short spring and summer break cultural trips to China, Hungary, and Panama. Educators, show your students the world first-hand and expand their global awareness, while introducing what it means to be global citizens.

Our unique, educator led programs include community service, cultural learning, an opportunity to speak and practice a foreign language, and immerse students in community life. You and your students will experience local culture and be supported by local AFS Volunteers.
