

Defy Borders: Travel With Your Students!

AFS-USA offers short spring and summer break trips to **China, Turkey, Panama and Switzerland** that allow educators to show their students the world first-hand and expand their global perspective which is critically important for the future of today's students.

These unique, educator-led programs include community service and/or cultural learning and immerse students in local life. You're supported by local AFS chapters, and students stay with volunteer host families where they improve their language skills and form relationships that can last a lifetime.

Visit www.afsusa.org/groups for details.

Connecting Lives, Sharing Cultures
